

# COVID-19 Student Testing Consent Form SY 2022 - 2023

COVID-19 Testing is one of the layers of mitigation that will maximize the safety of our students and staff during the 2022- 2023 school year. Because testing will need to be performed regardless of a parent or guardian's availability at the time a test will be administered, consent for testing is required for all students. The testing will be provided for students at no cost to students or their family.
